

UT-10A

Infrared based , Automatic Urinal Flush System. In this model, solenoid valve is placed away from the sensor Unit- ideally in the false ceiling/shaft.

Model No.	UT-10A
	Electrical operated
External Material	Durable tamper resistance Stainless Steel plate
Power Supply	220 V 50 Hz AC
Sensing Range	Within a Range of 500mm (Adjustable)
Detecting Time	5.5 Seconds
Flushing Time	0 - 30 Seconds (Adjustable)
Operating Water Pressure	0.2 - 10 Bar
External Size	114 mm (W) x 76 mm (D) x 114 mm (H)
Solenoid Valve	ABS Body G 1/2" inlet/outlet
Indications	While Sensing & While Flushing
